The Future of Fintech

The Birth of Fintech

- An environment for disruption
- 2007/2008 - kickstarting Fintech
- Fintechs to watch in 2020

Then and Now - 2007 VS 2020

- Economic parallels
- Technology evolution, particularly Fintech

Second Wave of Banking

- Those that become banks or those that supporting banks
- Big Tech making moves

Fueling Recovery - Innovation & Data

- The time is now and value is up for grabs
- It begins with connectivity and data
- Systems are only as good as their foundation

What's Next

- Personal Financial Autopilot
- Insight and intervention for a better financial well-being
- Bridging the financial knowledge gap
